

Guaranteed To Improve Suction Performance!

Bio-Pure is the only product EPA pH compliant & Clinicians Report Approved!

How Bio-Pure works?

Bio-Pure is a microbial cleaner, 1 microbe becomes 9 -10 million in just 24 hours. The microbes work 24/7 eating/digesting organic waste through the entire system. What they cannot digest is loosened and flushed through. Bio-Pure will restore your pipes, and with continued use of Bio-Pure your vacuum suction will perform at full pump capacity.

Bio-Pure Makes it Easy

Measure, Mix with Warm Water & go.
Use 2 x per week or daily, using the same amount of Bio-Pure per week.

Features & Benefits

- Microbial cleans better, works faster and is all natural.
